Introduction

The National Center for College and Career Transitions (NC3T), under direction of the Pennsylvania Department of Education's Bureau of Career and Technical Education (BCTE) and in coordination with the Pennsylvania Association of Career and Technical Administrators (PACTA), has developed this directory of Adult Career and Technical Education (CTE) programs within Pennsylvania. In the 2019-20 school year, NC3T facilitated face-to-face and virtual meetings with Adult CTE coordinators to discuss challenges and best practices in their programs. Participants noted that Adult CTE programs are diverse in the number of offered programs, enrollment, resources, etc. Therefore, participants recommended the development of a detailed guide that would capture information about Adult CTE programs statewide. This directory provides information that will allow coordinators to network and interact with other programs in more intentional and collaborative ways.
